## 5 Things You Can Do to Improve Your Daily Mental Health

Mental health plays a huge role in your overall health and well-being. It affects everything, including how we think, feel and act, and helps determine how we make healthy choices and cope with stress.

Because it's such a crucial component of your health, it's important to focus on maintaining or improving your mental health. Here are five simple ways to do so every day:

- 1. Express gratitude.** Taking five minutes a day to write down the things that you are grateful for has been proven to lower stress levels and can help you change your mindset from negative to positive.
- 2. Get exercise.** You probably hear all the time how beneficial exercise is to your overall health, but it's true. Exercising regularly can benefit your brain function, reduce anxiety and improve your self-image.
- 3. Spend time outdoors.** Getting outside, especially when it's sunny, can greatly improve your mood, which in turn, benefits your mental health.
- 4. Be kind.** Helping others and being kind not only helps the receiver of the act but can also help you. It doesn't have to be anything crazy—holding the door or giving a compliment can go a long way.
- 5. Get a good night's sleep.** Fatigued individuals typically experience drowsiness, mood changes, loss of energy and appetite, headaches, and a lack of motivation, concentration, and alertness. Strive for seven to eight hours of sleep a night to improve your mental health.

## Cheesy Broccoli and Rice Squares

1 cup low-fat cheddar cheese (shredded)  
1 cup broccoli (chopped)

## Eye Health 101

Keeping your eyes healthy is a very important task. Fortunately, it's also an easy thing to do. Here are five simple ways you can keep your eyes healthy:

1. **Get a regular exam.** Complete eye exams consist of a series of tests designed to evaluate your vision and check for eye diseases.
2. **Wear protective eyewear.** When you're playing sports or doing a task that requires eyewear to be worn, heed the advice and wear glasses or goggles to prevent injury to your eyes.
3. **Don't smoke.** Smoking can contribute to a host of irreversible eye diseases, so quit or refrain from smoking to protect your eyes.
4. **Put your shades on.** Wearing sunglasses protects your eyes from the sun's harmful rays. Don't forget to put them on when you're outside!
5. **Give your eyes a break.** Staring at a computer screen for too long can cause a painful strain on your eyes. Whenever possible, try giving yourself a short break from looking at the screen.

### Foods to Boost Eye Health

1. Salmon

2. Red bell peppers

3. Dark, leafy greens

4. Lean meat and poultry

5. Sweet potatoes

6. Eggs

7. Squash

8. Broccoli

9. Brussels sprouts

10. Sunflower seeds

## 3 Common Exercise Excuses and How to Beat Them

We all have our reasons for not working out, yet excuses only prevent us from being happy and healthy. Here are some of the most common excuses and ways to overcome them.

1. **Too Tired**  
The first and most common reason to avoid regular exercise evaporates as soon as you push through it the first time. Multiple studies have shown regular physical activity can improve energy.
2. **Too Busy**  
Another popular excuse, it's an easy out to cite scheduling conflicts before shrugging off the gym, but according to the American Heart Association, only 75 minutes of weekly vigorous exercise is needed to improve your health.
3. **Not Motivated**  
One of the best ways to motivate yourself is to post about it on social media. No one likes failing short in front of others, so commit publicity to hold yourself accountable.
